Hazardous Weather

Freeze Watch in Effect Tonight

Weather Forecast Office

Fort Worth, TX

Issued Nov 09, 2018 4:37 AM CST

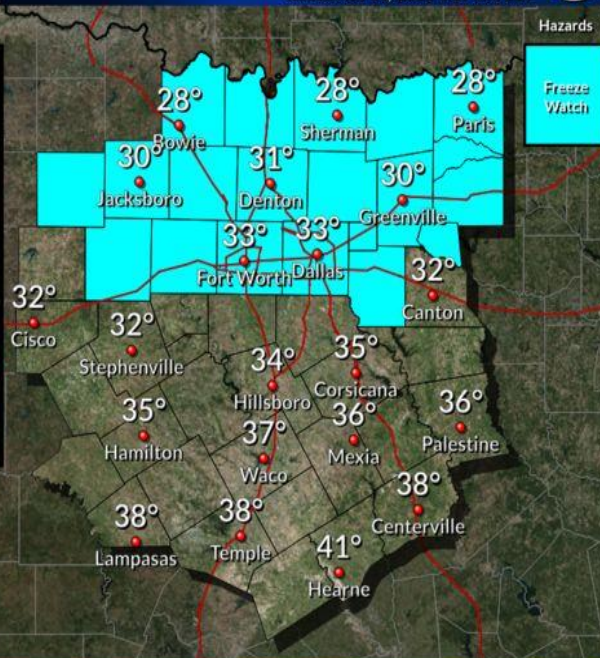

Late Friday Night - Saturday Morning

A Freeze Watch is in effect late tonight through mid-Saturday morning. Frost may also occur in the highlighted area.

The area highlighted by the watch is where temperatures are expected to be 31 degrees or lower for several hours. The watch/warning area may have to be expanded later today.

- Protect sensitive plants
- Protect or bring inside outdoor pets
- Turn off sprinklers

Average date of first freeze for DFW: November 22nd.

weather.gov/fortworth

A Freeze Watch is in effect for parts of North Texas late Friday night into mid Saturday morning. The Watch highlights areas where temperatures are expected to be 31 degrees or lower for several hours. Subfreezing temperatures between 27 and 32 degrees are forecast for this area. Bring in outdoor plants sensitive to temperatures and make sure outdoor animals have shelter from the cold temperatures! Lows will be in the mid 30s to low 40s across Central Texas.

Much Cooler with Showers and Isolated Storms

Weather Forecast Office

Austin/San Antonio, TX

Issued Nov 09, 2018 2:49 AM CST

Rains Gradually Pushing to the Southeast

NWSSanAntonio

weather.gov/ewx

Showers and isolated thunderstorms will gradually shift to the southeast during the day, ending by midday across the Hill Country and Central Texas. A secondary surge of cooler air will result in highs from the upper 40s Edwards Plateau to the upper 50s near the Coastal Plains.

Hazardous Weather

Dangerous Marine Conditions

A Strong Cold Front Will Push Across the Gulf Waters Friday Morning

Weather Forecast Office
Corpus Christi, TX

Issued Nov 08, 2018 9:37 PM CST

A Gale Warning is now in effect for the Middle Texas Gulf Waters and a Small Craft Advisory is in effect for area bays and waterways as a strong cold front will push across the Gulf Waters Friday morning. Strong to very strong northerly winds will develop across the Gulf waters through the day on Friday in the wake of the cold frontal passage with average wind speeds 25 to 30 knots and frequent gale force gusts. Bays will be choppy to rough and seas will build to 8 to 10 feet nearshore waters and 10 to 12 feet offshore waters, with occasional higher seas. Mariners, even those who are experienced, are highly encouraged to seek safe harbor to avoid these dangerous marine conditions prior to the onset of gale conditions.

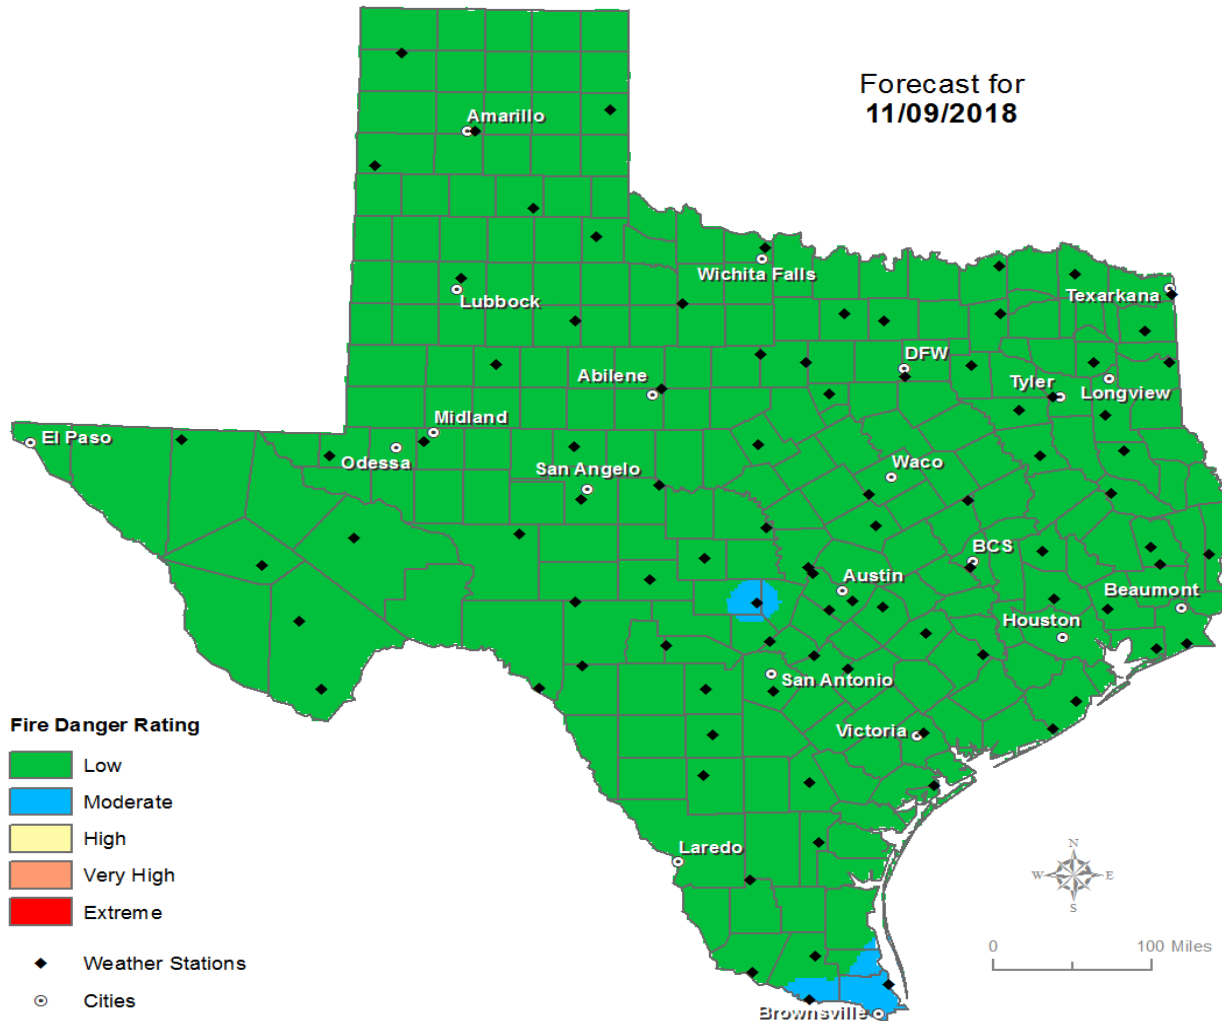

Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
11/08/18	Urban and Small Stream Flood Advisory	Bexar and Medina Counties
11/08/18	Flood Advisory	Atascosa, Bexar and Medina Counties
11/09/18	Flood Advisory for Minor Flooding in Poor Drainage Areas	DeWitt County
